

FACT SHEET

Mission: To deliver innovative, compassionate, integrated health services and support that are accessible to all in our community, regardless of ability to pay.

Legal name: Greater Seacoast Community Health

CEO: Janet Laatsch, RN, MBA

Budget: \$19 million

Health Center patients: 16,250

Health Center visits: 64,300 per year

Family Services clients: 1,875

Employees: 300

About Our Patients

- 85% live at 200% of the federal poverty level or below
- 17% of patients are uninsured
- 37% of patients are on Medicaid
- 11% of patients are on Medicare

Our services are available to all, but our primary target population is people with low incomes, uninsured patients, homeless people, families with children, and seniors. Many are experiencing risk factors such as single parenthood, psychosocial issues, chronic illness, mental illness, and substance misuse. We make services available regardless of ability to pay by offering an income-based sliding fee scale for uninsured patients. Parenting classes, home visiting and most family programs are free.
